Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed 16 May 2005 with respect to claim 1 have been fully considered and are persuasive. Specifically, the prior art of record fails to teach a process for the trenchless installation of an underground pipe from a first access location to a second access location, the process comprising the salient combination of microtunneling and horizontal directional drilling. While Duke et al. '624 teach a process similar to that of the instant invention, the patented process does not facilitate the use of drill string as required by claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
